

Keep the Do not call list the way it is in New Jersey. In the past almost every 2 days I received three telemarketer phone calls. Of course they call either when we are eating, or watching TV. Some telemarketers called me since I signed up but are very polite and apologize for the call when I say that I sign the do not call list. It's almost 6 months that I do not receive a phone call and I telling you IT FEELS GOOD to eat and watching TV in peace. PLEASE LEAVE THAT LAW ALONE.
